

Proofing-PDF: To approve this version

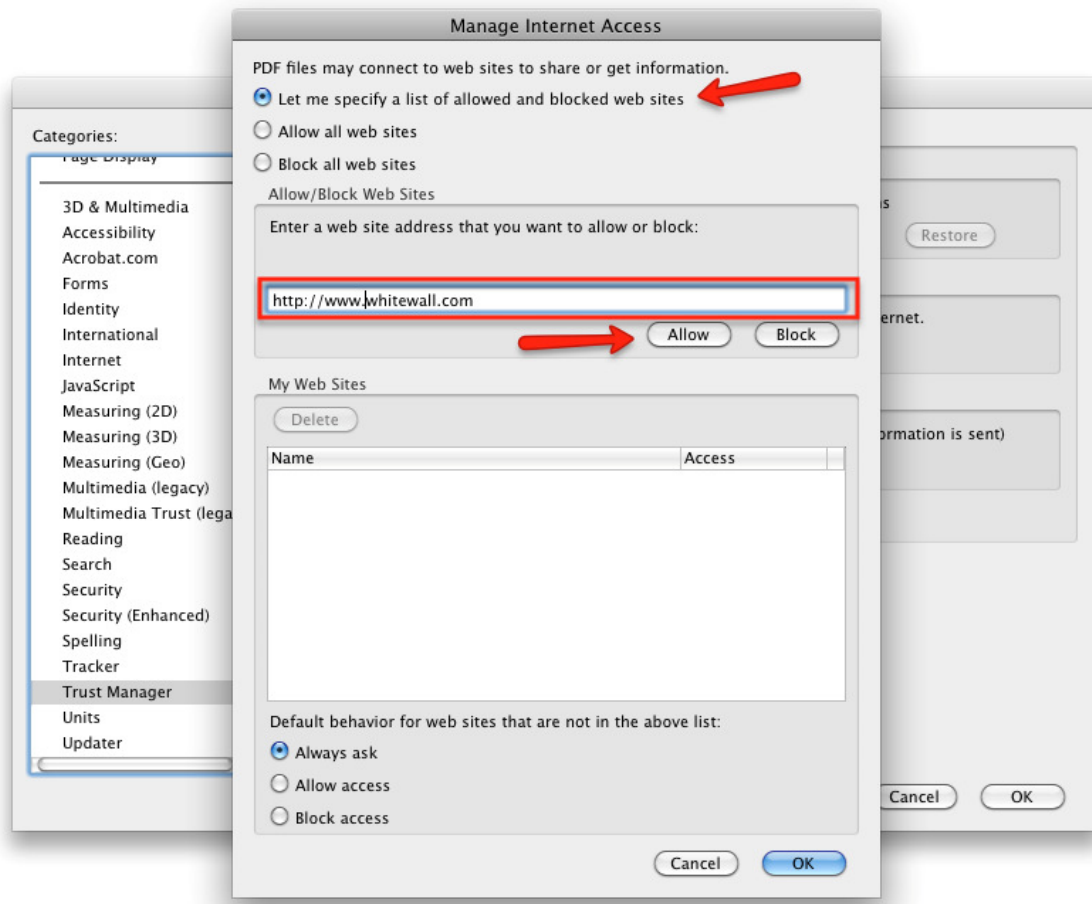

In order to approve the preferred version of your picture you need to use the free version of Adobe Reader. It is necessary to configure the settings in the preferences of the standard configuration for the access authorization. Please read the description below to see how it works.

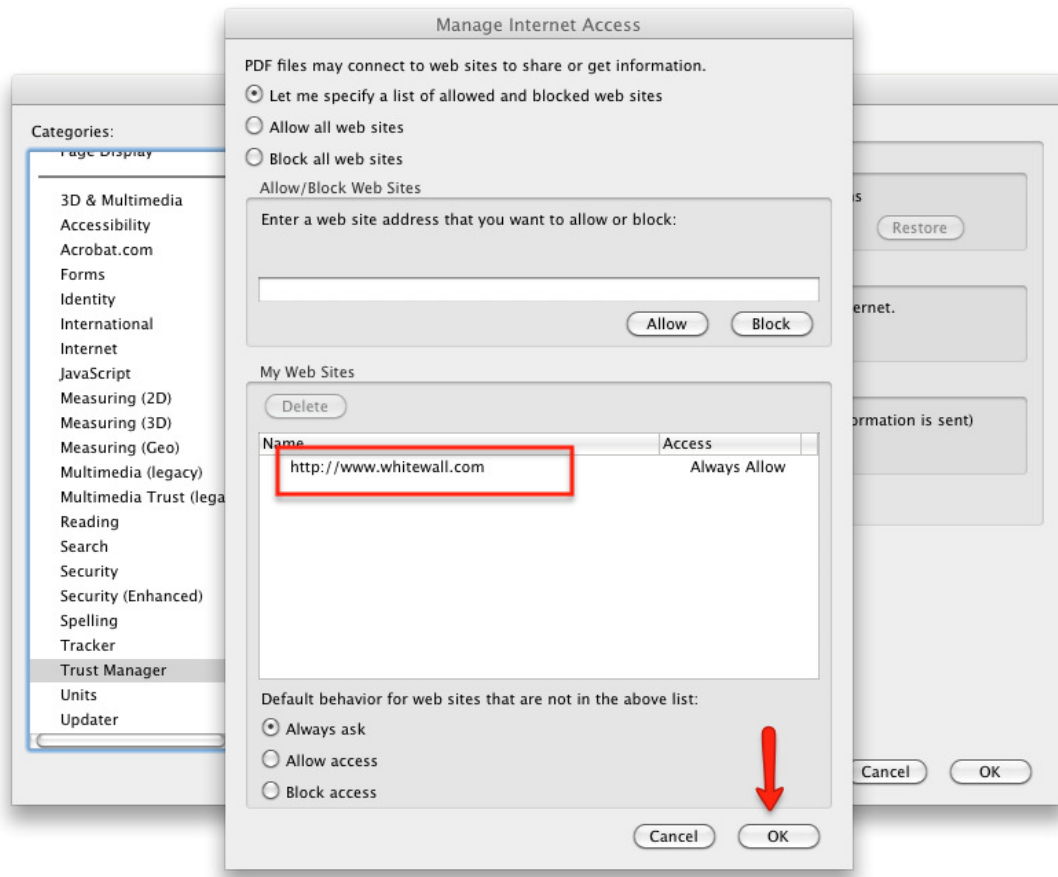

Go to the menu, click “*Adobe Reader*” and choose “*Preferences...*”.

Please choose the “Trust Manager” in the categories and choose “Change Settings...”.

Enter the URL of WhiteWall and confirm with "Allow".

At last, click "OK". Now the access to the website <http://www.whitewall.com> is permitted.
